Valve & Valve Automation

Products & Services

We provide an array of the most trusted brands on the market, as well as offering some of our own manufactured products, engineering of special products, and automation on any type of valve.

Our Core Offering:

- » Valves
- » Actuation
- » Engineering
- » Training
- » Machining
- » Fabrication
- » Valve Testing

We provide valve automation components such as solenoid and pilot valves, limit switches, failsafe accumulator systems, positioners, mounting bracket and coupler kits, linear and rotary cylinders actuators, pneumatic and hydraulic cylinders actuators, electric actuators and backup systems. We offer custom coatings of valves and valve components to prolong life and add value to your product.

We can provide from the basic valve component to complete valve packages that include custom engineering, drawings, testing and training to make sure you are ready to maintain and install your new product properly to ensure a long, successful and safe product life.
