Valve & Valve Automation

Products & Services

We offer fast availability of many of the popular brands on the market, as well as offering some of our own manufactured products, engineering of special products, and automation on any type of valve.

Types of Valves:

- Knife Gate Valves
- Pinch Valves
- Plug Valves
- Check Valves
- Gate and Globe Valves
- Ball Valves
- Butterfly Valves

We provide valve automation components such as solenoid and pilot valves, limit switches, failsafe accumulator systems, positioners, mounting bracket and coupler kits, linear and rotary cylinders actuators, pneumatic and hydraulic cylinders actuators, all types of electric actuators and backup systems. We offer custom coatings of valves and valve components to prolong life and add value to your product.

We can provide from the basic valve component to complete valve packages that include custom engineering, drawings, testing and even training to make sure your customer is ready to maintain and install their new product properly to ensure a long, successful and safe product life.
